If necessary - alternate Date in case of snow = January 23rd

A Tour of the Bedrock Gardens **Joan Van Landingham** **Master Gardener and MGC Member**

Take a photo journey through a magical garden - right here in New Hampshire.

Bedrock Gardens is a 20 acre garden located on a 35 acre property in Lee, NH. It is notable for its landscape design, horticulture and sculptures located throughout the garden.

Once a private garden it has recently transitioned to a non-profit public garden. Starting as a dairy farm established in the 1740's it has grown into a masterpiece of themed gardens.

Hear about the people that had the inspiration and how they made it happen.

"One of the most beautiful and intriguing landscapes in NH" Boston Globe

"Amazing Medicinal Plants"

Carol Felice

Certified Aromatherapist and Herbalist

They are more than just pretty faces! Get to know the uses and planting needs of medicinal plants that you can grow in your local garden.

Will the Bee Balm overshadow the Lemon Balm? How do you harvest Elecampane roots without killing the plant? Or how do you make Chamomile tea fruity and refreshing instead of it tasting like hay soup?

Carol will use slides, discussion, and sample teas and other products made from some of our plant subjects. She will also address details like: size, compatibility, taming or not, and quirks.

Bring your curiosity and questions to this fun presentation.

**9:30 am Hospitality- please bring your own beverage & snacks
